Facetime answered on another device meaning

I'm not robot!

Face to face with just a tap.

Simple one-tap calling and super smooth switching from cell to Wi-Fi make it easy to check in from anywhere.

What does facetime answered on another device mean.

iPhone powered on and connected to the same Wi-Fi network as your iPad in order to make the call. However, with Calls on Other Devices, you'll be able to take and receive phone calls even when your iPhone is not nearby, or even powered on. Asked By: Jackson Russell Date: created: Jun 04 2021Why won't my iPhone allow calls on other devices Answered By: Carlos Barnes Date: created: Jun 05 2021 On your iPhone, go to Settings > FaceTime, then turn on Calls from iPhone. Asked By: Curtis Johnson Date: created: Apr 08 2021 Can 2 iPhones be linked together Answered By: David Baker Date: created: Apr 10 2021 If you have more than one iPhone, you can connect all of the devices at the same time. Each device shows up in the Devices section of iTunes. You'll need a wireless connection or a separate USB cable, and a free USB port on your computer for each iPhone. Asked By: Douglas James Date: created: Jul 13 2022How do I stop calls from going to other devices on my iPhone and tap Phone. Tap Calls on Other Devices by moving the Allow Calls on Other Devices toggle switch to the Off/white position. Asked By: Alejandro Rodriguez Date: created: Jun 27 2022Why is my FaceTime answered by calling party has info for you and someone else in same contact card, and someone else in same card, and someone else in same card, and someone else in same card, and some else in same els then both phones will ring for FaceTime even if not same Apple ID. Asked By: William Phillips Date: created: Feb 09 2022 Dial 114. Follow the voice prompts. Dial the telephone number you want to verify. The computer will check if that line is busy on another call, and let you know. Asked By: Evan Taylor Date: created: Aug 24 2021Does the phone ring differently when someone is on the other lineAnswered By: Joseph Hughes Date: created: Aug 27 2021 If the system has trouble locating the person*, then the system will generate more rings (that you hear) as it continues looking. You get the double-ring/extra-long ring when the locate/route process takes longer than a single ring, but less time than two rings plus appropriate spacing. Asked By: Xavier Ward Date: created: Jul 18 2022 You are probably sharing an AppleID. This is a feature of Handoff. Look at your FaceTime settings, and turn off "receive calls on other devices" Ultimately, splitting your AppleID's is the way to go. Professional Why are windows so powerful? The simple answer is that Windows is much more complex and robust piece of software than a smartphone OS.. Is Microsoft Windows going away? Windows 10 was released in July 2015, and extended support lasts 10 years, but...
