This zombie themed activity will strengthen your students' skills in calculating midpoint and distance.Students are given a graph with zombies on it and a corresponding worksheet. Students must carefully read the clues on the worksheet, find the coordinates of the correct zombies on the graph, and then calculate the midpoint or distance based on what the question is asking for. Nine midpoint/distance questions are included in this activity.Distance learning?No problem! This activity now includes a Google Forms digital option!Explore the  Distance Learning in my store for more digital resourcesThree Ways To UsePDF Printable with all questions on one pagePDF Printable with one question per pageGoogle Forms Digital Activity-->View the still and video previews to see the activity in more detail
