But what is the TOEFL test, exactly, and what do you need to know about it? If youve got questions about the TOEFL is, how it works, whether or not youll need to take it, and how to prepare for it. So lets get started. What Is the TOEFL? The TOEFL (Test of English as a Foreign Language) is a standardized testthatmeasures a test-takersmastery of the admissions process. Typically, those who take the TOEFL want to attend university or graduate school abroad. But anyone who needs to demonstrate a mastery of English for an academic purpose can take the TOEFL focuseson how English is used in an academic setting, which is why schools and universities use TOEFL scores for admissions purposes. The reading passages in the TOEFL use formal, academic language and high-level vocabulary rather than casual or conversational English as a foreign language. In fact, there are several different tests for English as a foreign language, and the oneyou choose to take will dependon your academic and career goals. If youre a student, then youll probably end up takingthe TOEFL. But, if youre applying for a work visa, then you may need to take the Test of English for International Communication (TOEIC) instead of the TOEFL. The TOEIC tests everyday and business language, rather than academic language, and so is more appropriate for work environments. The TOEIC is all about that business Who Should Take the TOEFL? The TOEFL is intended mainly for students looking to attend a university or graduate school program in an English speaking country. But peoplecan also take the TOEFL for other purposes. Thosewho may take the TOEFL include: Students entering into a high school in an English speaking countryPeople who are looking to be licensed or certified in a particular fieldPeople who need to demonstrate their mastery of the English language for immigration purposes Thosewho simply want to assess their English language skills in a formal setting to take the TOEFL. The test requires you to read some difficult passages and be familiar with some high-level vocabulary and most students are not exposed to this type of language before the 11th grade. Not every college or university requires incoming international students to take a TOEFL. Those that do generally ask forthe TOEFL if: English is not your primary language of instruction hasnt been English for at least five yearsSome schools will waive the need for you to take a TOEFL test if you have: Scored in a certain percentile on the English, reading, and writing sections of the ACT or SATTaken a TOEFL sometime in the past two yearsEarned a diploma or degree from an English-speaking country If your goals are even remotely academic, the TOEFL is probably the test for you Why Take the TOEFL? Academic language is often dense and formal, so even people whove studied English for many years can struggle in an English academic environment. Before a university accepts you into an academic program, the admissions board wants to know that you can handle the course load of an English-based program: they use your TOEFL score as a standardized metric for your English, youll most likely be required to take the TOEFL as part of your application. Many schools accept scores from other English tests as well, but the TOEFL is currently the most popular English-language assessment test.9,000 universities in 130 countries accept TOEFL scores, including the US, Canada, the UK, Australia, and New Zealand. All schools in the top 100 universities in the world accept the TOEFL. If your interested in attending an English language university, its likelythat your school of choice will either requireor accept TOEFL scores. School RequirementsMany schools will provide minimum score you must earn on the TOEFL to be accepted. All schools have different cutoffs, but you will need at least a 70 for an unconditional acceptance at almost any US school. More selective schools, however, tend to require higher TOEFL score cutoffs, since theyhave higher academic standards and require students to have a mastery or near-mastery of English. Keep in mind that your exact TOEFL score. As long as you meet or exceed the minimum TOEFL score for your school, you dont need to worry about having a high TOEFL score. For instance, if your schools minimum TOEFL score is 90 and you got a 91, dont take the test again just to get a higher score. You met the threshold. Now its time to focus on other parts of your application, like your essay or your SAT/ACT scores. If your feeling nervous about taking the TOEFL, it may help to think of the test as a tool to help you rather than an obstacle to be overcome. The test helps youfigure out early if an English-based university setting would be a right fit for you. If possible, try to take the TOEFL well in advance of your applications. This way, if you don't score well the first time you take the test, all ittells you is that you need more practice before you make the huge move to study abroad. Youre allowed to take the opportunity to learn from your mistakes and prepare for the next time you take the test. Minimum speed, minimum score. Kind of the same thing! What Is the TOEFL Test Structure? The TOEFL is a long and complicated test, but knowing how it works is the first step to conquering it. So lets look at the different types of TOEFL tests available and how the test is structured. TOEFL typesThe vast majority (97%) of all TOEFLs taken are Internet-based tests (IBTs). For an IBT TOEFL, studentstake thetest on a provided computer in a testing room, usually next toseveral other people also taking the test. The minority (3%) of all TOEFLs are paper-based tests (PBTs). The PBT doesnttest students peaking skills, so the test-makers are phasing out these types oftests. As of 2016, you can only take a PBT in test centers where internet testing isnt available. Many universities will only accept IBT TOEFL scores. So make sure to double-check your school international admissions pages if youre taking the PBT. No matter the type of TOEFL you take, you can take the test as many times as you want to. The only exception to this rule is that you cannot take the test again if youve taken a TOEFL any time in the past 12 days. TOEFL Exam StructureThe test has four sections and will typically take a total of 4.5 hours to complete. These four section is scored out of 30. These section scores are then added together for a final, total score of 120 points. Section 1: ReadingThe TOEFL reading section is completely multiple choice. Each reading section will have three or four written passages with 12-14 questions for each passages with 12-14 questions for each passages with four written passages with fou listening section is also completely multiple choice. Each listening section will include four to sixlectures with six questions each. Section 3: Speaking The TOEFL speaking section is a little more complicated than the reading or listening section. But, luckily, each speaking section will always follow the samepattern, so you can prepare yourself for it. In the speaking section, you will get six speaking prompts, or tasks. The first two tasks will be integrated tasks, where you must answer questions based on a given conversation or piece of text. Lets break down each speaking task one-by-one. 2 Independent Speaking Tasks: Task 1 will askabout your interests or your thoughts on a particular topic. Task 2 will askyou to give your opinion and choose between two speakers discussing that same topic (usually, them agreeing or disagreeing about parts of the article). Youll then summarize what the speakers opinions are and compare that to the text. Task 4 gives you two lectures on the same topic question. Task 5 has
youlisten to a conversation between two people who are discussing a problem withtwo possible solutions. Youll then summarize the content and give your opinion (no text to read). (Note that Task 5is often the most difficult listening task because you must discuss three things: what the students suggested solutions to a problem, andwhat solution you prefer and why.) Task 6 asks you to listen to a monologue and then summarize or answer a more specific question about the information (no text to read). Section 4: Writing Task (20 minutes) For this section, you must both read a short passage and listen to a lecture. You willthen respond to/summarize thediscussion. 1 Independent Writing Task (30 minutes) For this section, youll usually be asked to choose between two options and give your reasons and examples why you chose the way you did. For example, Do you agree or disagree that most parents are too controlling of their children? or Do you believe that people are inherently good or bad?' If youre feeling overwhelmed, never fear! The more you practice, the easier it will be in time. 6 Tips for Doing Well on the TOEFLNow that you know what TOEFL is used for and what it tests, well cover strategies to do well. Even if your English skills are well above average, its a good idea to incorporate a few tips and strategies into your studying and test-taking. That wayyou can do your absolute best on test day. So lets go through a few TOEFL scores, so you may not even need to take the test! Your TOEFL scores are validfor two years. So if your ecurrently undecided about your future academic plans and you have some flexibilityfor your academic future, whether or not you think you need a TOEFL score right now. If, however, you feel as though you dont have time to study or are reluctant to take the test for any reason, then double-check to see if you must take the TOEFL. If you can avoid taking the TOEFL, youll save yourself considerable time and effort. First, make a list of all the colleges or universities to which you want to apply. Next, go directly to their websites or Google [college name] + international admissions. Almost always, the first link that pops up will be the page youre looking for. Here, you can check to see whether international students musttake the TOEFL or any other English comprehension test. Most major universities accept the TOEFL, but youll always want to double-check to be sure. If the schooldoesnt say whether or not itaccepts the TOEFL on theadmissions page, then contact the schools admissions office directly. After all, you dont want to study and pay for a test if yourschool of choice wont accept it! Some schools require the TOEFL, some dont, and some will waive the requirement if you meet other criteria. Always, always double check what your school(s) require before you apply! #2:Brainstorm Some Speaking and Writing Topics Before the TOEFLIts easy to find that yourself. Unfortunately, youll be asked to talk about yourself several times throughout the test. Before test-day, make a list of hobbies you enjoy (or just have the vocabulary to talk about). This way, you can feel more relaxed and prepared going into the test. You dont even have to tell the truth in this section the test. You dont even have to tell the truth in this section the test. You dont even have to tell the truth in this section the test. You dont even have to tell the truth in this section the test. You dont even have to tell the truth in this section the test. You dont even have to tell the truth in this section the test. You dont even have to tell the truth in this section the test. You dont even have t phrasesthat you can matchto different topics. Even small pre-prepared phrasescan give you much more confidence going into the test. (Note: be careful not to go too overboard with your speechis, and trying to adapt severalpre-prepared sentences to a topic will sound awkward.) For your templates, come up with some transition phrases that you can then finish with yourspecific speaking topic, rather than trying to pre-form and adapt complete sentences. For example, one of your listening tasks will always be to discuss a students opinion on a problem and two possible solutions. From this information, you can make yourself some sentence skeletons, such as:The speaker has two options for and each has merit [explain the two options and the speakers feelings], As for the option I would recommend. And so on. #3:Take Notes During the TOEFLAs you go through the test, don't be afraid to scribble all over your scratch paper. Even if it takes a couple of seconds for you to jot down a note, itll help save you time later on. Write down some of the key words or phrases in a piece of text in the reading section. Making notes and markings like these willalso help save you from your mind going blank when its timeto answer prompts. Before you give your answers in the speaking and writing sections, take the time to brainstorm some topics and phrases. If you have time, you can even make yourself an outline for your speech in the speaking section. And definitely take a minute or two to create an essay outline before you start writing! #4:Incorporate (More) English Into Your Daily LifeHowever much English you use and study in your daily life, see if you can comfortably double it. If you dont use much English in your daily life, then start incorporating the language into your daily routinebit by bit. Watch TV shows and movies and Youtube videos in English. Read news articles, magazines, books, textbooks, or blogs in English. See if you can find someone with whom you can practice speaking English language. And make sure that person is someone whos willing to correct your errors when necessary. #5:Practice Speaking and Writing English in a Distracting EnvironmentYoull most likely be taking the TOEFL, which means youll have to take the test in the same room as other people around you speaking at the same time. This canmake some people nervous or feel like they can't remember what to say. Even though youll be wearing a headset while you take the listening, speaking, and writing sections, youll likelystill hear other people are gathered and speaking should help you recreate the test environment, #6:Practice Speaking and Writing With a Timer45-60 seconds to speak or 20 minutes to write an essaymay sound like a long time, but you wanted to say Topractice for the speaking section, look up some old TOEFL speaking and writing questions. Answerthe prompt while strictly following the timing instructions for prep time and speaking/writing time. Thiswill help you get used to preparing for and answering questions in the proper timeframe. Always practice speaking and essay writing with the proper test timing so that you can perfect your answers and timing strategies. Test-taking is a combination of knowledge and strategy. Master both and you wont fail. Conclusion: What Is the TOEFL Test? What Do You Need to Know About It? Half the battle of taking a standardized test like the TOEFL Test? What Do You Need to Know About It? Half the battle of taking a standardized test like the TOEFL Test? What Do You Need to Know About It? The TOEFL is divided into 50% academic English and 50% general English. Who is it for? The TOEFL measures the ability of non-native speakers of English to use and university settings. Most people who take the TOEFL test are planning to study at colleges and universities where instruction is in English. In addition, many government agencies, scholarship programs, and licensing/certification agencies use TOEFL scores to evaluate English proficiency. There is also an exam for younger students called TOEFL Junior. Click here to see a comparison of TOEFL scores with other exams. Where do I take the test? You can take the TOEFL iBT at a test centre or at home. The test is organised by the Educational Testing Service. You can register for the TOEFL iBT and TOEFL iBT and TOEFL junior are registered trademarks of Educational Testing Service (ETS). This web site is not endorsed or approved by ETS.
