Play as a hungry shark in the action/adventure game Shark Attack. This time, your mission is to eat everything you can find, no matter whether it's at the bottom of the ocean or on a crowded beach. Shark Attack combines simple controls with the gameplay of popular games like slicer.io. This means you'll not only have to try to eat everything in your path but also keep an eye out for the other hungry sharks. If you run into another shark, you'll die, while other sharks will die if they run into you. Advertisement Remove ads and more with Turbo As you eat victims you'll level up, which means you'll be able to eat larger fish and sharks. Shark Attack's controls couldn't be simpler: just swipe your finger across the screen to move the shark. That being said, keep in mind that your shark will need a bit of time to turn or change direction. On top of all that, you can unlock new sharks as you win points and level up.Overall, Shark Attack is an addictive and entertaining action game. Welcome to the ATTACK SHARK driver.
